INTRODUCTION

This document contains the release notes for the LexisNexis IDVerse Nodes marketplace package available upon the PingOne Advanced Identity Cloud (Ping AIC) formerly known as ForgeRock Identity Cloud, as well as Ping Access Management (PingAM) formerly known as ForgeRock Access Management.

QUALIFICATION STATEMENT

Ping AIC / ForgeRock Identity Cloud

LexisNexis IDVerse Nodes are tested on Ping AIC the latest release of software. The nodes are part of the Ping Identity release process and validated on a regular basis.

PingAM / ForgeRock Access Management (On Premise)

This section documents testing performed with LexisNexis IDVerse Nodes. This table captures tested configurations. The intent is to demonstrate backwards compatibility. Newer versions of infrastructure compliant with Ping Identity published system requirements should be supported.

Component	AM 7.3	AM 7.4	AM 8.0	AM 8.1
Java (OpenJDK)	11	11	17	17
Web Container (Tomcat)	9	9	10	10
LexisNexis IDVerse Nodes Jar	1.0.0-v7.x	1.0.0-v7.x	1.0.0-v8.x	1.0.0-v8.x

Note: The LexisNexis IIDQA Nodes are only compatible with PingAM / ForgeRock Access Management version 7.3 and later.

Note: Due to differences in compatibility between PingAM v7.x and PingAM v8.x, there are two different distribution media jar files for the LexisNexis IDVerse nodes.

KNOWN ISSUES

This following is a complete list of currently known issues:

- There are no known issues at this time

CHANGE LIST

LexisNexis IDVerse Nodes 1.0.0 – September 2026

- Initial Release
